## **Structural change - Tackle it together!** **Social - ecological - transboundary!**

**\*Public conference\***

**Date:** Saturday, 1 December 2018

**Time:** 11 a.m. to 5 p.m.

**Venue:** Gleis 1 - KulTourPunkt, Bahnhofstraße 76, 02826 Goerlitz, Saxony, Germany

**Languages:** German, Polish, English

Right before the 24th international conference on climate change (COP24) in Katowice, Poland, we would like to discuss how the structural change in the coal regions of the EU can be tackled and which impact the global pledges to reduce CO2 emissions and the phase-out of coal will have. Which alternative perspectives do exist for the citizens living in regions dominated by the coal sector? How can we achieve a just and ecological structural change for Lusatia and other coal regions? How can we develop a concept for structural change taking into account the different points of view and interests? Where do we find inspiring examples of successful projects? How is local and European politics required to ensure a fast ecological transition and socially just solutions? What kind of left ideas do we have to offer good prospects to the people while avoiding ecological setbacks?

During the conference we will exchange views with local politicians, trade unionists and climate justice activists coming from Saxony, Brandenburg and Poland.

You are kindly invited to attend our conference and contribute to our discussion.
